

PE Org-AI-R Platform Foundation API

1.0.0 OAS 3.1

/openapi.json

health

^

GET	/health	Health check	▼
GET	/health/snowflake	Check Snowflake connection	▼
GET	/health/redis	Check Redis connection	▼
GET	/health/s3	Check S3 connection	▼
GET	/health/cache/stats	Redis cache statistics	▼
GET	/health/cache/test	Test Redis cache operations	▼
DELETE	/health/cache/flush	Flush all cache	▼
GET	/health/env-check	Check environment variables	▼

industries

^

GET	/api/v1/industries	List industries	▼
GET	/api/v1/industries/{id}	Get industry by ID	▼

companies

^

POST	/api/v1/companies	Create a new company	▼
------	-------------------	----------------------	---

GET	/api/v1/companies	List companies (paginated)	▼
GET	/api/v1/companies/all	Get all companies	▼
GET	/api/v1/companies/industry/{industry_id}	Get companies by industry	▼
GET	/api/v1/companies/{id}	Get company by ID	▼
PUT	/api/v1/companies/{id}	Update company	▼
DELETE	/api/v1/companies/{id}	Soft delete company	▼

1. Collection

^

POST	/api/v1/documents/collect	Collect SEC filings for a company	▼
POST	/api/v1/documents/collect/all	Collect SEC filings for all 10 companies	▼

2. Parsing

^

POST	/api/v1/documents/parse/{ticker}	Parse all documents for a company	▼
POST	/api/v1/documents/parse	Parse documents for all companies	▼
GET	/api/v1/documents/parsed/{document_id}	View parsed document content	▼

3. Chunking

^

POST	/api/v1/documents/chunk/{ticker}	Chunk all parsed documents for a company	▼
POST	/api/v1/documents/chunk	Chunk documents for all companies	▼
GET	/api/v1/documents/chunks/{document_id}	Get chunks for a document	▼
GET	/api/v1/documents/chunk/stats/{ticker}	Get chunk statistics for a company	▼

## 4. Reports

**GET** /api/v1/documents/report Get Evidence Collection Report

**GET** /api/v1/documents/report/table Get Evidence Collection Report (Table Format)

**GET** /api/v1/documents/analysis/export Export section analysis as Markdown

**GET** /api/v1/documents/analysis Analyze sections for all companies

**GET** /api/v1/documents/analysis/{ticker} Analyze sections for a company

## 5. Management

**GET** /api/v1/documents List all documents

**GET** /api/v1/documents/stats/{ticker} Get document statistics for a company

**GET** /api/v1/documents/{document\_id} Get document by ID

## 6. Reset (Demo)

**DELETE** /api/v1/documents/reset/{ticker} Delete all data for a company

**DELETE** /api/v1/documents/reset/{ticker}/raw Delete only raw files for a company

**DELETE** /api/v1/documents/reset/{ticker}/parsed Delete parsed files and reset status

**DELETE** /api/v1/documents/reset/{ticker}/chunks Delete chunks and reset status

## Sample PDF Parsing

**GET** /api/v1/sec/parse-pdf Parse Sample Pdf

## Signals

DELETE	/api/v1/signals/reset	Delete all signals for all companies	▼
DELETE	/api/v1/signals/reset/{ticker}	Reset all signals for a company	▼
DELETE	/api/v1/signals/reset/{ticker}/{category}	Delete signals by category for a company	▼
POST	/api/v1/signals/collect	Trigger signal collection for a company	▼
GET	/api/v1/signals/tasks/{task_id}	Get task status	▼
GET	/api/v1/signals	List signals (filterable)	▼
GET	/api/v1/companies/{company_id}/signals	Get signal summary for company	▼
GET	/api/v1/companies/{company_id}/signals/{category}	Get signals by category	▼

Reset (Demo)

^

DELETE	/api/v1/signals/reset/{ticker}	Reset all signals for a company	▼
--------	--------------------------------	---------------------------------	---

Assessments

^

POST	/api/v1/assessments	Create a new assessment	▼
GET	/api/v1/assessments	List assessments	▼
GET	/api/v1/assessments/{assessment_id}	Get assessment by ID	▼
PATCH	/api/v1/assessments/{assessment_id}/status	Update assessment status	▼

Dimension Scores

^

POST	/api/v1/assessments/{id}/scores	Add dimension scores	▼
GET	/api/v1/assessments/{id}/scores	Get all dimension scores	▼

PUT	/api/v1/scores/{id}	Update a dimension score	⌵
GET	/api/v1/dimensions/weights	Get dimension weights configuration	⌵

Evidence

⌵

GET	/api/v1/companies/{ticker}/evidence	Get summary evidence for a company	⌵
GET	/api/v1/evidence/stats	Get evidence collection statistics	⌵
POST	/api/v1/evidence/backfill	Trigger full evidence backfill for all companies	⌵
GET	/api/v1/evidence/backfill/tasks/{task_id}	Check backfill task progress	⌵
POST	/api/v1/evidence/backfill/tasks/{task_id}/cancel	Cancel a running backfill task	⌵

Root

⌵

GET	/	Root endpoint	⌵
-----	---	---------------	---

Schemas

⌵

- AssessmentCreate > Expand all object
- AssessmentResponse > Expand all object
- AssessmentStatus > Expand all string
- AssessmentType > Expand all string
- BackfillProgress > Expand all object
- BackfillResponse > Expand all object
